

AIEMC Cable ladders and trays are devices used to support, arrange, and manage electrical wires, cables, network cables, signal cables, etc. of a project. This product provides safety for cables and people when operating, eliminating the risk of scratches or tearing of the cable cover, saving space, time and maintenance and installation costs.

Besides, the shape of the cable tray ladder is quite simple and sturdy. So you can easily move it around the building. The included accessories are also quite diverse, easy to disassemble and assemble by hand, thus shortening construction time.

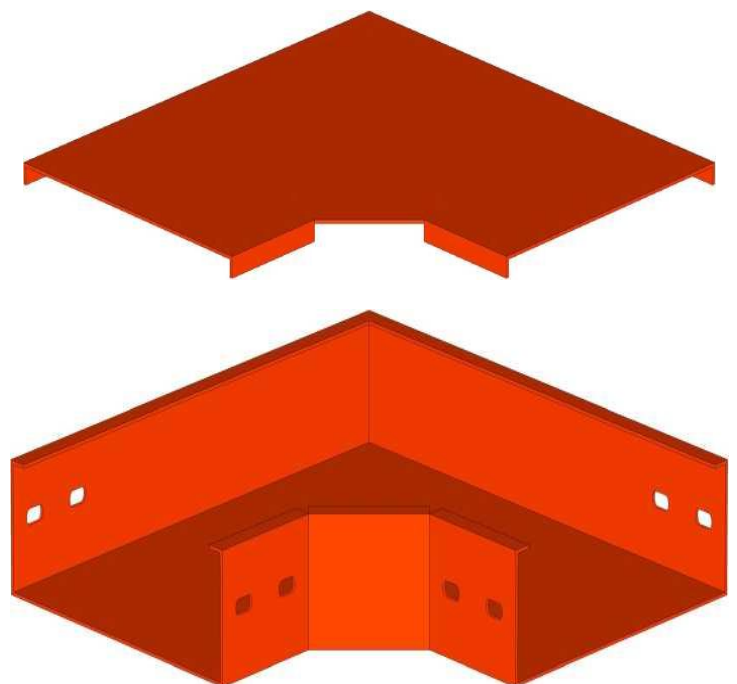

FEATURES

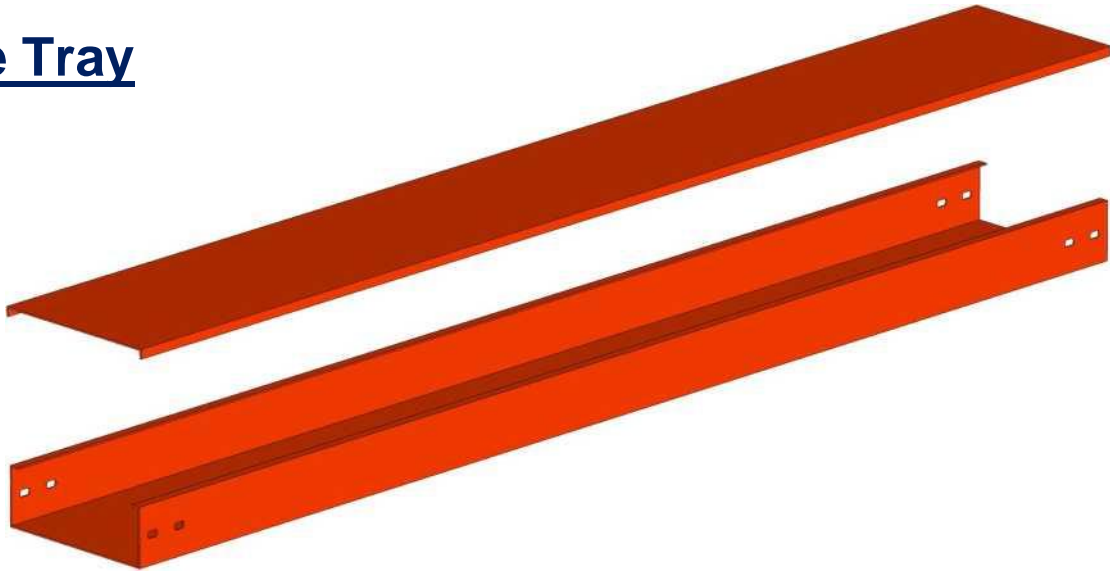

- Vật liệu: thép sơn tĩnh điện, tôn tráng kẽm, thép mạ kẽm nhúng nóng hoặc thép không gỉ (Inox), có nắp đậy che chắn.
- Chiều dài thanh thông dụng: 2.5m hoặc 3.0m
- Chiều ngang thông dụng: 50 ÷ 500mm
- Chiều cao thông dụng: 30 ÷ 150mm
- Độ dày vật liệu: 0.8mm, 1.0mm, 1.2mm, 1.5mm, 2.0mm, 2.5mm
- Màu sắc thông dụng: trắng, kem nhẵn, xám, cam hoặc màu của vật liệu. Các màu khác theo yêu cầu của khách hàng.
- Độ bền va đập: IEC 61537-2001
- Mạ kẽm nóng: ASTM A123/A123M-08
- Sơn tĩnh điện: >70μ TCVN 4392-1986

APPLICATIONS

- Máng cáp là hệ thống máng dẫn dùng cho việc lắp đặt dây cáp điện trong các nhà máy, chung cư, cao ốc...
- Trung tâm dữ liệu
- Hệ thống điều hòa
